EDUCATION

Govt. College of Engineering, Kannur

B Tech in Computer Science

Kannur, Kerala

Aug 2018 – July 2022

PROJECTS

Micro service Project

Go, Clean architecture, Postgres, Wire, JWT, Swagger, gRPC

[Source Code](#)

- Broke down the whole application into multiple services for future scalability.
- Developed an E-commerce RESTful backend API using **Go** and leveraged the **Gin** library for routing and request handling
- Implemented **Swagger** for comprehensive API documentation and testing, ensuring robustness and ease of integration
- Hosted the application on **AWS EC2 with nginx**, ensuring reliable and scalable deployment. Additionally, **Dockerized** the application for improved portability and ease of deployment.

Hotel Aggregator (ongoing)

Next.js, Typescript, Tailwind css

[Source Code](#)

- Developed a hotel aggregator web app using **Next.js and Typescript**
