EXPERIENCE

Flutter Developer Intern June 2024 - December 2024
Wecode Life Pvt Ltd | Kochi, India

- Developed and maintained mobile applications using Flutter and Dart.
- Integrated Firebase services, including Firestore, Authentication, Cloud Messaging, and Storage.
- Worked with RESTful APIs to fetch and display data using HTTP/Dio.
- Utilized Hive for local storage solutions.
- Translated UI/UX designs from Figma/Adobe XD into responsive and interactive layouts.
- Collaborated with developers and designers using Git, GitHub, and Agile methodologies.

Intermediate PHP Developer October 2021 - March 2024
TechWyse IT Solutions Pvt Ltd | Kochi, India

- Worked on WordPress websites using PHP, My SQL, JavaScript, JQuery and AJAX.
- Worked on custom themes and plugins, and modified existing ones to improve website functionality.
- Optimized website performance by implementing caching, magnification, and other best practices.
- Conducted thorough testing to ensure websites were fully functional, responsive, and compatible across different devices and browsers.
- Provided technical support and maintenance to clients, resolving issues in a timely and efficient manner.

Full Stack Intern November 2020 - March 2021
Trinity Technologies | Trivandrum, India

- Worked on HTML, CSS, Bootstrap, JavaScript, JQuery, PHP, My SQL and AJAX
- Determined coding requirements for site creation, including e-commerce capability, School Management and specialized scripts.
- Employed coding practices based on commonly accepted standards to establish site layout and user interface.
- Studied basic project requirements with assigned technical lead and planned development strategies.
- Troubleshot and debugged code ensuring compatibility with devices, browsers, and operating systems.

PROJECTS

- **Flexicart** - A comprehensive eCommerce app built with Flutter, offering a seamless user experience and simplified transactions. It utilizes REST API, Hive, and Razorpay.
- **Blip Chat** - A dynamic messaging app developed with Flutter, featuring Google authentication for secure login. It integrates Firebase Firestore and Flutter Local Notification.
- **Botalk** - An AI-powered chatbot app developed with Flutter, utilizing Google Gemini for intelligent and interactive conversations.
- **Paperise** - A versatile note-taking app built with Flutter, enabling users to create and update notes effortlessly. It leverages Firebase for storage.
- **Atmocast** - A real-time weather app developed with Flutter, providing accurate weather data using REST API.
