sajinkrishna02@gmail.com

SUMMARY

Enthusiastic graduate eager to tackle challenging projects in a dynamic environment. Innovative and flexible, ready to apply problem-solving skills and technical knowledge while seeking growth and skill improvement in a supportive setting.

EDUCATION

Fullstack Python with React   Pursuing
Mashupstack Software Training Institute

Toc H Institute Of Science And Technology, Kochi   2020-2024
BTech in Computer Science and Engineering   6.55/10

St Joseph's EMHSS, Thrikkakara   2020
Higher Secondary Education   75%

PROJECT

SMARTSHOPFINDER : Personal Shopping Assistant(Minor Project)
This app finds the shops where the most products are found
Database :MySQL , Programming Language : Python

Smart Ambulance Traffic Priority System with advanced warning lights(Major Project)
Built a system to help ambulances get through traffic faster using GPS and smart traffic lights. Improved ambulance movement in busy areas with real time traffic updates and priority signals. Configured a mobile app for controlling traffic lights using blynk IOT app.

SUBJECT OF INTEREST

- Front-end development
- Back-end Programming
- Framework
- Database Management

INTERNSHIPS & CERTIFICATIONS

Federal Academy for Cyber Education
- Completed internship on cyber and information security - 15 days

Course in Cyber and Information security by CDAC
- Certification in Cyber and information security by CertNexus - 5 days

Tathva'22 conducted by NIT CALICUT
- Certificate of participation in Dev Ops - 1 day

SKILLS

Technical Skills

Programming Language
Python
C++
C Programming

Basics of Computer Networking
Network Security Protocols, OSI model, TCP/IP, Firewall

Softskills
Communication
Resiliency
Leadership
Analytical Skills
Cooperation Skills
Problem Solving
